Boon Depths - How to Play

Goal

Fight your way up through 12 chambers of a glowing underworld and defeat the Hollow Warden in the last one. If you fall, you keep the embers you earned and come back stronger.

Controls

Phone: touch and drag on the left side of the screen to move (a joystick appears under your thumb). Tap or hold **STRIKE** to attack: it auto-aims at the nearest foe. **DASH** makes you briefly untouchable and moves you fast. **FLARE** is a blast around you with a 6-second cooldown.

Desktop: WASD or arrows to move, J or Space to strike, K or Shift to dash, L or E for Flare, P or Esc to pause, 1/2/3 to pick a gift.

Gifts from patrons

After each chamber, one of four patrons offers 3 gifts. Pick one. Gifts stack up to level 3.

Vela of Storms (blue): chain lightning, dash zaps, attack speed. **Korr of Embers** (orange): burning, damage, bigger Flare. **Nerith of Tides** (green): healing, armor, max HP. **Sefa of Gales** (violet): speed, faster dash, critical hits.

Springs of Rest

After chambers 4 and 8 you reach a spring: heal 40% of your HP or take an extra gift.

Foes

Red orbs chase you. Yellow triangles shoot from range. Purple blocks are slow and tough. Cyan wisps are fast. The Hollow Warden fires rings of bolts, calls minions and gets angrier at half health.

Mirror of Embers

Spend embers on the main menu for permanent upgrades: Vitality (+HP), Might (+damage), Grace (a death defiance that revives you once) and Fortune (+embers). Progress saves on your device.

Tips

Dash through bolts, not away from them. Save Flare for crowds. Tides gifts make a first escape much easier.
